

Rains Help to Bring Fires Under Control

Cloudy weather and scattered rainshowers have helped BLM fire fighters bring all forest fires under control.

The 9 acre sand creek fire which started two weeks ago is out. Another 15 acre blaze, 25 miles north west of Livengood, is under control and in the mop-up stage. The 1 acre beaver creek fire is also in the mop-up stage.

Four smokejumpers have controlled a one acre blaze on the Yukon River west of Fort Yukon.

BLM patrol flights are keeping a close watch on the 5 acre White River fire 25 miles inside the Canada border. No action has been taken on the fire. Scattered showers in that area are expected to put out that fire also.

GOLF: A lot like taxes - you drive hard to get to the green and then wind up in the hole.
