

EYE TALK

My name is Jeanette A. Hopson. I have taken Fannie Akpik's position as an eye care coordinator.

It's good to be back working for the Health Department. After having worked here at the eye care center in the past.

For you people in our North Slope outlying villages I will let you know what dates we'll be having eye clinics in each of your villages as soon as we

set up the eye examination schedule.

We have an optometry clinic scheduled for Barrow on the week of October 25 with Dr. Jeff Keene from Eagle River. There's also a scheduled ophthalmology clinic here in Nov. 16-19 with Dr. Farson from Alaska Native Medical Center.

I have a nice new selection of frames if you'd like to

make an order for eyeglasses. I still do repairs, adjustments, make eye exam appointments, etc.

So feel free to call me at 852-5600 ext. 310 or write to this address:
