

## It's a 'war' in the Aleutians

A-7E Corsair IIs on the deck of the USS Enterprise, shown at top, are readied for takeoff from the 1,123 foot deck. Other photos, moving clockwise, include "Air Boss" Norm Westerbuhr giving the final OK for takeoff to an aircraft from the Primary Flight Control Center of the Enterprise. On Adak, P-3s are used to detect foreign submarines. An F-14 readies for takeoff.
