

Two-day Arctic Tour Popular With Tourists

The most popular Wien Consolidated Airlines arctic tour is the two-day Arctic Coast Itinerary to Kotzebue and Nome, according to Frank H. Whaley, tour manager.

"June this year saw twice as many on this tour as any other. The second most popular tour is the three-day Polar Seas package which takes in Pt. Barrow in addition to Kotzebue and Nome," he said.

May and June total tourists on the arctic tours increased 18 per cent over the same period a year ago, Whaley revealed.
