

**Think of it as  
a Bullet on Skis.**

INDY 500 EFI. One look, and you know this sled is loaded. Its fuel-injected, liquid-cooled, 500 power-plant blows the competition away. And all that white-knuckle power is turned into a smooth-as-silk ride with Independent Front Suspension (IFS) and new Improved Transfer (ITS) rear suspension. Don't wait! Shoot on in instead.
