

Also Met with Legal Services

A meeting between the Board of Directors of Legal Services and the Board of Directors of RurAL CAP was also held for the purpose of discussing the relationship between Legal Services and RurAL CAP.

A comment was made that it is sometimes difficult to get an overall picture of the direction Legal Services is taking, and a further comment was made that there was not enough publicity to prospective clientele as to what services are available. It was pointed out that more field trips are needed to educate the rural people in real estate law and the land claims issue, as well as handle family matters in a formal manner, but lack of staff makes this difficult.

It was further pointed out that RurAL CAP's top priority for this program year is education of the Natives on the land claims bills. Mr. Mallott advised that RurAL CAP in conjunction with CEDC and the Alaska Federation of Natives has contracted for a 30 minute film of public education on the land claims. It will cost approximately \$15,000 and will be finished about April 1st. It is planned that the film will be used in all villages, and also, hopefully, will appear on nation-wide television networks.
