

Infant transport unit here

By Bill Jones

EMS Coordinator

Our long awaited Infant Transport Unit is here . . .

Most of it, anyway. A few parts are still on the way. When they get here we will put on some training sessions and we will be able to put the unit into service.

Cindy and I would like to thank the Pt. Barrow Mothers' Club, Pt. Barrow Lions Club, Barrow Search and Rescue, and the North Slope Borough Search and Rescue for their generous contributions towards the purchase of the transport unit. Also thanks to all the other people that helped the unit arrive safely in Barrow.

When the Infant Transport Unit is put into service it will be used to transport infants into Barrow from the villages if needed. Again thanks

to all that helped and donated money.

Ten students completed EMT I training on May 18th. **CONGRATULATIONS!**

Cindy attended a Critical Care Nurses Workshop in New

Orleans and will have a lot of good information to share with us, when she gets back.

At long last summer camping and boating are here. Remember to think safety and prevent accidents.
