Color

White hull with orange detail stripe
Orange interior with grey nonskid deck

Sides

Solid fiberglass laminate 5/16" thick
on 91 Meter boats. All others 9/32"

Bottom

Solid fiberglass laminate 1/2" thick
on 91 Meter boats. All others 3/8"
Boats are reinforced with extra laminate
for added beaching protection

Stringers

Longitudinal, foam-filled fiberglass
stringers for rigidity. 91 Meter boats
have four. All others have three.

Bulkheads

Decks on 91 Meter boats are supported
by a web system of stringers and six
afterward bulkheads.

Decks

Decks are a plywood-fiberglass laminate
and are bonded to the hull sides.
91 Meter boats have 3/4" plywood. All
others use 5/8" plywood.

Flotation

All under deck areas are filled with
polyurethane flotation foam.

Cargo Bow Door 3

35" wide ramp type door has large
stainless steel hinges, bronze locks
and lowering ropes with jam blocks.

Cargo Retainers

Bin board retaining units are bonded
to the hull sides. 91's have three sets.
All others have three. None on Bowpicks.

Scuppers 4

4" x 10" scuppers with screw-in covers drain
self-bailing decks. 91's have five. All
others have three.

Gunnel Guards 1

Iron bars with rails are through bonded
to matching the off-rails on the inside of
the gunnels.
