Inupiat University of the Arctic is a small, struggling University started in 1975 by local Inupiat (Eskimo) leaders in an area which had no schools beyond the eighth grade until 1974. The North Slope Borough, encompassing an area over 88,000 square miles, is experiencing tremendous change because of oil, lands settlement, and other factors. Local people need training to carry out the responsibilities laid on them, to achieve employability, to advance their careers, for special interests, and to preserve their language and culture. Instruction is made more difficult by language and work patterns, climate, geography and other problems. Life in Barrow involves substandard housing, housing shortages, a lack of certain conveniences such as flush toilets, and an extremely high cost of living. We must have staff who will not be overcome by culture shock, who can live in and as part of the community, and who will have a strong commitment to building a university that is successful in accomplishing what it has been established to do.

**APPLICATIONS:** There is no set deadline, but positions will be filled as soon as possible; in some cases this may be shortly after July 1st, in others, not until Fall. Send letter of application, professional credentials, transcripts, letters of recommendations, and other information to: Lyle O. Wright, President, INUPIAT UNIVERSITY OF THE ARCTIC, P.O. Box 429, Barrow, Alaska 99723.
