SPENARD ROAD (JEWEL LAKE ROAD TO McRAE STREET) PROJECT F-M0517(1) LOCATION AND DESIGN PUBLIC HEARING

The Department of Transportation and Public Facilities (DOT/PF) is planning to reconstruct Spenard Road from Jewel Lake Road to McRae Street. The existing two lane road will be up graded to an urban roadway complete with storm drainage, curb and gutter, sidewalks and illumination.

A combined Location and Design Public Hearing will be held on Tuesday, June 16, 1981, at the DOT/PF Office Building located at 4111 Aviation Drive. The meeting will be held in the upstairs conference room, at 7:30 P.M.

There will be two alternative designs for the reconstruction of Spenard Road that will be held in the upstairs conference room, at 7:30 P.M.

1. A four lane roadway with curb and gutter and sidewalks.
2. A three lane roadway (two driving lanes with middle turn lane) with curb and gutter and sidewalks.

The Draft Environmental Impact Statement and other pertinent information will be available for inspection during the hours of 7:30 A.M., to 4:00 P.M., Monday through Friday at the Alaska Department of Transportation and Public Facilities, 4111 Aviation Drive, Anchorage, Alaska.

The public hearing will concern itself with public comments and testimony as to the desirability of alternatives from the standpoint of their social, economic, and environmental impact on the adjacent area.

All interested persons are urged to attend. If you have any questions prior to the meeting, please contact Kay Schmidt at 266-1659.
