Invitation for

The State of Alaska  
Department of Transportation  
and Public Facilities  
Division of Planning  
and Programming intends to nego-

iate contracts for the purpose of  
conducting a feasibility study.

This project will be a two phase  
study of a dock facility at McGrath,  
Alaska. The first phase will be a  
feasibility and planning analysis.  
The second phase is to provide engineer-  
ing design for the project if funded.  
Specifically, among other things,  
the study should determine the  
area for dock facility at McGrath; the  
needs of the community and sur-  
rounding area; the location of the  
project; the current and future needs  
of the community; the materials and  
construction methods required for  
the proposed facility; the social, environ-  
mental and economic impacts of the  
proposed facility; the impact of the  
proposed facility on the community  
and maintain the facility if constructed.  
Consultants will be selected accord-  
ing to the Department's policies and  
procedures on the basis of  
Project Statement of interest sub-  
missions. Consultants must have a

strong background in transportation  
and city planning, engineering,  
environmental analysis, hydrology, and  
construction. Consultants must have  
Formal detailed work proposals with  
a schedule of work for the top three  
ranked consultants within the top three  
calendar days after notification of  
selection. The study and design work  
is to be completed within 120  
days of contract award. Submittals  
must be received by:
