## One to Four Bedrooms

Sixteen "Speed-Gets-'Em" Houses, reflecting years  
of research and practical experience, are the very  
fastest CUSTOM BUILT houses to erect -- not just  
more ready-made plans for you to try to adapt to yours  
-- the "Speed-Gets-'Em" House System has been de-  
signed with only YOU in mind! They are the best  
houses for the lowest total cost, combining rigid  
strength with durable good looks. By sharply cutting  
material, labor and freight costs and by intelligent  
planning, we have eliminated costly-to-heat waste  
space -- yet providing a maximum of convenience and  
livability.

The "Speed-Gets-'Em" Package House System was de-  
signed with only YOU in mind—because so many of  
you have asked us to recommend a "pre-fab" or "pre-cut"  
house system. Finding none that suited your area either  
in design or ease of erection or from a freight standpoint,  
we went to work and developed a system! So, here is your  
low-cost, yet permanent, investment in better living.

ALL PRICES SHOWN ARE IN U.S.A. DOLLARS.
