

Chalkyitsik Children to Visit Fairbanks

The school children of Chalkyitsik will visit the A-67 Centennial site, schools, businesses and farms in the Fairbanks area on their visit next week.

The children will stay in Fairbanks homes, and see what life is like in the city. They have saved their money and opened savings accounts for spending money during their trip.

The trip has been planned for several months, and Fairbanks businesses and people contributed money and services to help the village.

The children will watch the Tundra Times as it comes off the press on May 5.
