Any questions please contact Golovin Native Corporation @ (907) 779-3251 or 3252.
Publ: 1/18, 2/1, 2/15, 3/1

SUPPLEMENTAL NOTICE OF PROPOSED CHANGES IN THE REGULATIONS OF THE ALASKA BOARD OF FISHERIES

This is a supplemental notice to the September 21, 1994 notice of proposed change in the regulations of the Alaska Board of Fisheries. In addition to the notice given on September 21, notice is given that the Alaska Board of Fisheries, under authority vested by AS 16.05—AS 16.10, proposes to adopt, amend or repeal regulations contained in Title 5 of the Alaska Administrative Code which implement, interpret, or make specific the provisions of Title 16, Alaska Statutes.

Regulations to be the subject of board action concern subsistence, personal use, sport, guided sport, and commercial finfish and shellfish fishing.

In addition to the subject matter in the September 21, 1994 notice, the Board of Fisheries may adopt, amend, repeal, or take no action on the subject matter listed in the following informative summary:

IN THE COOK INLET AREA

A. Kenai River Sockeye Salmon Management Plan; conservation, development, and allocation of Kenai River sockeye salmon among personal use, sport, guided sport, and commercial uses; improvement and protection of salmon habitat in the Kenai River; bag, possession, and harvest limits; methods and means; fishing seasons and locations opened and closed for sport, guided sport, and personal use fishing within the Kenai River; Kenai River guided requirements; and the Kenai River sockeye salmon escapement and sonar passage goals used for the management of commercial, sport, guided sport, and personal use fisheries.

IN THE WESTWARD AREA

B. consider pot limits for Lithodes couesi King crab in Statistical Areas K, M, O, R, T, and Q; establish pot limits for C. tanneri and C. angulatus Tanner crab in Statistical Area J.

C. consider procedures for petitions for King and Tanner crab fisheries in federal waters.

D. amend the description of either the Alaska Peninsula and Aleutian Islands Area, Bristol Bay Area, or Arctic-Yukon-Kuskokwim Area in the sport fishing regulations to encompass the Pribilof Islands.

IN THE ALASKA PENINSULA, CHIGNIK, KODIAK, COOK INLET, AND PRINCE WILLIAM SOUND AREAS

E. consider regulations to enhance a Coded Wire Tag (CWT) recovery program in these areas to require that the heads of all adipose-fin-clipped Chinook salmon must remain attached to the fish until sold.

IN THE SOUTHEAST AREA

F. consider changes to the commercial shrimp fishing regulations that prohibit the use of subsistence pots while commercial fishing.

G. consider subsistence finfish and shellfish fisheries in the Port Baker and Port Protection areas.

IN THE STATEWIDE REGULATIONS

H. consider changes to the sport fishing by proxy, personal use fishing by proxy, and taking subsistence finfish and shellfish by proxy regulations.

I. consider regulations to enhance the recovery of all tagged adipose fin-clipped fish harvested in the sport fishery by requiring that these fish must remain intact until they reach a specified designation.

In addition to the above regulatory subjects, the board will also consider 18 timely received agenda change requests at the Anchorage portion of the March 1995 meeting.

This action is not expected to require an increased appropriation.

Copies of the agenda change requests, portions or proposed regulations may be obtained by writing to the Alaska Department of Fish and Game, Boards Support Section, PO Box 25526, Juneau, AK, 99802-5526.

Notice is also given that anyone interested may present oral or written comments relevant to the subjects in this notice. Written comments may be submitted to the Board of Fisheries any time before the proposal is taken up by the board in deliberations at the appropriate scheduled meeting (see the meeting schedule below). As a practical matter, written comments should be submitted to the Boards Support Section office, at the above address, at least three weeks before the appropriate scheduled meeting to ensure inclusion in the board workbooks.

The March 1995 meeting will be held in two separate meetings. The public hearing por-

tions for each meeting will begin immediately after staff reports and continue until everyone has been given the opportunity to be heard. Additional public hearings may be held throughout the meeting just before the consideration and adoption of proposed changes in the regulations for the various areas. An agenda will be posted daily during the meeting. The board will take oral testimony only from those who register before the cut-off time announced by the board chair. The length of oral statements may be limited to five minutes or less. Anyone interested in, or effected by, the subject matter contained in this legal notice should make written or oral comments if they wish to have their views considered by the board.

Anyone interested in or affected by subsistence, personal use, sport, guided sport or commercial fishing regulations, is hereby informed that, by publishing this legal notice, the Board of Fisheries may consider any or all of the subject areas covered by this notice. **THE BOARD IS NOT LIMITED BY THE SPECIFIC LANGUAGE OR CONFINES OF THE ACTUAL PROPOSALS THAT HAVE BEEN SUBMITTED BY THE PUBLIC OR STAFF.** Pursuant to AS 44.62.200(b), the board may review the full range of activities appropriate to any of the subjects listed. For example, a proposal regarding the full range of activities appropriate to any of the subjects listed. For example, a proposal regarding setting or changing season or bag limits may require the board to consider any date or any bag limit or none at all. The board may make changes to the personal use, sport, guided sport or commercial fishing regulations as may be required to ensure the subsistence priority in AS 16.05.258.

On its own motion, after public hearing, the board may adopt, amend, reject, supplement, or take no action on these subjects. In addition, the board may adopt other regulations necessary to implement, administer, or enforce the regulations adopted.

- NOTICE - OF THE ISSUANCE OF THE PRELIMINARY FINDING UNDER AS 38.05.035 (e) REGARDING PROPOSED OIL AND GAS LEASE SALE 80 (Shaviovik)

The Department of Natural Resources, Division of Oil and Gas (DO&G), gives formal notice under AS 38.05.945 (a)(3)(A) of the issuance of the preliminary best interest finding under AS 38.05.035(e) concerning the sale of oil and gas leases in proposed Competitive Oil and Gas Lease Sale 80, Shaviovik. Under AS 38.05.035(e), before this sale can take place, the director of DO&G must make a written finding that the sale will or will not serve the interests of the state. A preliminary draft of this finding under AS 38.05.035(e)(5)(A) describing the potential effects of proposed Sale 80 and containing proposed mitigation measures has been prepared for public review and consideration. In this preliminary finding the director has established the scope of the administrative review for the proposed sale; considered and discussed certain important facts and issues determined to be material as required by AS

38.05.035(e)(1) and (g); and set out the law, regulations and applicable policies upon which the director bases his determination. Also, accompanying this preliminary finding is DO&G's analysis of the sale's consistency with the Alaska Coastal Management Program (ACMP) under AS 46.40.

The public is invited to comment on any aspect of the sale including the sale's preliminary best interest finding, the ACMP consistency analysis, and any proposed term or condition. Comments should be mailed to the Division of Oil and Gas, 3601 'C' Street, Suite 1380, Anchorage, Alaska 99503, Attention: James Hansen, Chief Petroleum Geophysicist. **Comments must be received by D&G no later than 5:00 p.m. April 17, 1995** in order to be considered.

Copies of this preliminary finding, DO&G's ACMP consistency analysis and preliminary legal descriptions may be obtained from DNR's Public Information Office located in Suite 200 of the Frontier Building, 3601 'C' Street, Anchorage, Alaska. Copies are also available for public review at the following locations: Tuzzy Consortium Library in Barrow; the public library in Nuiqsut; the City Clerk's Office in Kaktovik and the Loussac public library in Anchorage. Preliminary Cadastral Protraction Diagrams for Sale 80 are available on request from DO&G at a cost of \$50 per set. Allow an additional \$3.50 for postage. Make checks payable to: Department of Revenue, State Of Alaska.

DO&G will hold a public hearing concerning this proposed oil and gas lease sale at 12:00 noon on March 29, 1995 in Kaktovik, Alaska. The hearing will be held in the North Slope Borough's (NSB) Teleconference Center located in the Kaktovik Community Center. Teleconferencing sites will also be available at the village of Nuiqsut in the NSB's teleconferencing center in the Nuiqsut Community Center; the City of Barrow in the NSB's teleconferencing center in the ASRC Building, 1st Floor; and in the Legislative Information Office's facilities located in Suite 200 at 716 W. 4th Ave. in Anchorage. Copies of the preliminary Best Interest Finding, preliminary tract maps and other information will be provided at these locations.

The preliminary best interest finding for Sale 80 was originally scheduled to have been issued on May 10, 1994. The final best interest finding for this sale was to have been issued in August 1994. However, in 1994 the Alaska State Legislature passed ch. 38, SLA 1994 (SB 308) and ch. 34, SLA 1994 (SB 238) into law. These laws altered the procedures and conditions for the issuance of best interest findings and Coastal Zone Consistency determinations for state competitive oil and gas lease sales. As a result of these changes, the director has determined it to be in the state's best interest to re-evaluate the facts and issues in proposed Sale 80 under the provisions of the new law in order that the finding and consistency

determination for this proposed sale could benefit from the new standards established by this legislation.

The final finding is expected to be available to the public on or about August 8, 1995. Under AS 46.40.096(e)(1), the right to petition the Coastal Policy Council for a review of a proposed consistency determination is limited to the applicant, or an affected coastal resource district, a state agency, or a citizen of an affected coastal resource district, but only if the party submitted comments during the above prescribed comment period. The final ACMP consistency determination will be issued on or before July 28, 1995 and will accompany the final best interest finding.

Proposed Sale 80 includes 202 tracts within an area of approximately 951,302 acres, and is located entirely within the North Slope Borough. The sale area is generally located between the Canning and Ugnuravik Rivers. The proposed sale area consists of state owned uplands and tide and submerged lands located on the north slope and in the Beaufort Sea. The communities of Kaktovik and Nuiqsut may be affected by activities resulting from this sale. Proposed Sale 80 has been included in the oil and gas leasing program since 1990.

A portion of proposed Sale 80 has not been previously included in the State's oil and gas leasing program as required under AS 38.05.180(c). However, Tracts 80-168, 80-169, 80-170, 80-171, 80-172, 80-173, 80-174, 80-175, 80-176, 80-177, 80-178, 80-179, 80-180, 80-181, 80-182, 80-183, 80-184, 80-185, 80-186, 80-187, 80-189, 80-193, 80-194, 80-195, 80-196, 80-197, 80-198, 80-199, 80-200, 80-201 and 80-202 are being offered in this sale as exempt acreage under the provisions of AS 38.05.180(d)(1). This statute allows the commissioner of the Department of Natural Resources to issue oil and gas leases in areas that have not been included on the State's five-year oil and gas leasing program if the land to be leased was previously subject to a valid state, federal or private oil and gas lease. The above referenced tracts were leased in one or more of the following lease sales: Sale 13, Sale 14, Sale 23, Sale 31 and Sale 39.

If a decision is made that the proposed sale best serves the interests of the state, an "Instructions to Bidders" packet will be made available on or about August 8, 1995. If a decision is made to hold the sale, it is tentatively scheduled to occur in the Wilda Marston Theater in the Loussac public library, 3600 Denali Street, in Anchorage, on November 21, 1995, in accordance with AS 38.05.180.

s/Kenneth A Boyd
Deputy Director
