

*Mountain Village students are using the AT&T Long Distance Learning Network Satellite telecommunications system to share projects, and learn about other places and perspectives from students in the Lower 48 and foreign countries. Jayne Sheppard and resource teacher, Jackie Wilson, are communicating with learning partners in Cairo, Egypt about the Middle East crisis. The Mountain Village resource department is also assisting in Operation Desert FAX by using the satellite telecommunications system to send messages to U.S. service personnel stationed in Saudi Arabia.*
