

# Educational TV— Via Space Satellite

**FAIRBANKS** — Tests are scheduled to begin next week on a communications system which will be used to broadcast educational television programs to 16 Alaskan communities, and to transmit and receive medical program information both inside and outside the state.

Two ten-foot-in-diameter dish antennae have been constructed on top of the Gruening Building on the Fairbanks campus, at the University of Alaska, Fairbanks.

The dishes were set up as part of the ATS-6 satellite project.

The head of the KUAC-TV production department, Myron Tisdell, said the project would broadcast programming in four subject areas throughout Alaska.

The areas are "Early Childhood Development," "Oral Language Development," "Health Education," and a program series called "Alaska Native Magazine."

Tisdell said the "magazine" will consist of a series of programs produced by KUAC with the help of Alaska Natives and will deal with matters of interest to the Native community in the state.

The satellite being used in the project is currently in orbit over the equator. Each of the villages involved in the project will be equipped with a dish antenna similar to those installed in Fairbanks and two television sets for receiving the programs.

While many of the programs will be broadcast in the English language, Tisdell said some would also be carried in Native dialects including Athabascan, Tlingit and Upik.

Nearly three-quarters of a million dollars in funds have been awarded to the State Division of Media Services, University of Alaska, by the Office of Telecommunications to assist in installation of the antennae and production by the 160 instructional programs by KUAC.

The programs are being designed by the Anchorage office of the Northwest Regional Educational Laboratory under a separate contract with the telecommunications office.

Two other uses are planned

for the antennae according to KUAC officials. They will be used to carry educational medical programs for the WAMI Program — Washington, Alaska, Montana, and Idaho Medical Program — between Fairbanks and Seattle, and for carrying experimental medical communications between KUAC-TV and the Native Health Service clinic in Fairbanks.

The project is financed by the National Institute of Education, the U.S. Department of Health, Education and Welfare, the Corporation for Public Broadcasting, and the National Aeronautics and Space Administration.

There are five communities which will have the capability of receiving and transmitting both audio and video material. They are Fairbanks, the primary transmission location, Juneau, the back-up transmission location, Tanana, Galeana, and Fort Yukon. Fort Yukon will be involved in the medical experiments only.

Communities equipped only to receive video material but capable of transmitting and receiving audio are Anchorage, Petersburg, Valdez, Angoon, Nenana, McGrath, Craig, Aniak, Yakutat, Allakaket, Minto, Nikolai, Sleetmute, and Little Russian Mission.

Some people believe that if a hen runs into the house it presages a visitor—other than the hen!

An equal opportunity employer.

## HELP WANTED

**POSITION OPEN FOR FAIRBANKS NATIVE ASSN. EMPLOYMENT SPECIALIST**  
Under the supervision of the FNA Program Director, the Employment Specialist assists in the staffing of the Fairbanks Native Community Center, the Adult Education Center and the Alcoholism Center. In addition, the Employment Specialist coordinates the local employment program and work training programs with the Bureau of Indian Affairs, the Dept. of Labor, the various unions and local employers. The Employment Specialist should be familiar with native employment problems so that effective vocational counseling can be given to the client. Salary \$19,500.  
Submit resumes to Mrs. Jerry Ford, FNCC Employment Office, 102 Lacey St., Fairbanks.

## LEGAL NOTICE

**NOTICE OF PROPOSED CHANGE IN THE REGULATIONS OF THE DEPARTMENT OF COMMERCE**  
Notice is hereby given that the Department of Commerce, under authority vested by AS 45.55.240, proposes to amend regulations in title 3 of the Alaska Administrative Code to implement AS 45.55.040(f) and AS 45.55.140(a)(1), as follows:  
(a) 3 AAC 08.020 is amended by adding a new provision which registered agents, as well as registered broker-dealers and investment advisers, to post a surety bond, in the amount of \$5,000, with the administrator. This conforms with AS 45.55.040(f) which currently provides all registered broker-dealers, investment advisers, and agents shall file the bond.  
(2) 3 AAC 08.310(1) is amended as follows:

Not-for-profit private issuers shall file a notice with the Administrator at least 30 days prior to the making of any offers or sales of securities; the notice shall contain a ruling of determination by the U.S. Internal Revenue Service in recognition of the issuers exempt status under section 501(c) (3) or 501(3) of the Internal Revenue Code of 1954 or such other documentation as the Administrator may require including, but not limited to, certified financial statements; by-laws and Articles of Incorporation; plan of financing; plan of operation; use of proceeds; background of officers and directors (or principles if unincorporated).

Notice is also given that any person interested may present oral or written statements or arguments relevant to the action proposed at a hearing to be held at the conference room of the Commissioner of Commerce, 9th floor Alaska Office Building, Juneau, Alaska at 10:00 o'clock a.m. on August 30, 1974. Copies of the proposed regulations may be obtained by writing to Commissioner of Commerce, Pouch D, Juneau, Alaska, 99801.

The Department of Commerce upon its own motion or at the instance of any interested person, may at the hearing or after it, adopt the above proposals substantially as set out above without further notice. Dated July 12, 1974, Juneau, Alaska.  
Emmitt Wilson  
Commissioner  
Department of Commerce
