

Pacific Halibut Commission Plans Charter

The International Pacific Halibut Commission plans to charter a setline halibut vessel for about 40 days beginning approximately June 1, 1975.

The vessel will conduct gear research and other field investigations in the Southeastern Bering Sea and off Kodiak Island. The charter will begin and end at Kodiak, Alaska.

The vessel must be fully equipped for setline fishing and have suitable accommodations for 9 men. Tenders will be accepted until April 18, 1975.

Interested owners should communicate with the International Pacific Halibut Commission for further information regarding the terms of the charter and for tender forms.
