

Valdez, Galena receive KSKA-FM broadcasts

The program services of Anchorage public radio station KSKA-FM are now available in the Galena area and soon will be coming to Valdez, according to Bruce Smith, KSKA general manager.

KIYU-AM began operations in Galena earlier this summer at 910 on the AM band. In addition to locally produced programs, the station will rebroadcast KSKA's signal for eight to 10 hours a day on weekdays and much of the weekend.

KCHU-AM in Valdez will begin carrying KSKA programming later this month.
