**Fun-loving sportabout for teenagers
and adults who like to travel light**

Head for the white open spaces on the reliable lightweight... the John Deere Spitfire compact.

Powered by a 340 cc free-air engine and weighing in at just 275 pounds, Spitfire can romp all day at trail-riding speeds. An aluminum slide-rail suspension adjusts to your weight and snow conditions. And a unique direct drive system has about

40 fewer parts than the drive on many competitive sleds.

Spitfire is compact in size, but not in features. Like the all-new Trailfire™, Spitfire features CD ignition, Mikuni carburetion, and a riveted grouser-bar track.

Come in today and look over the John Deere Spitfire. The truly compact sled, at a truly compact price.
