

# *Tiny Operator Would Prefer Shorter Articles*

The editor of this newspaper is most appreciative of the articles and letters he receives from the readers and contributors but he sometimes wonders whether he should print them or not because some of them, especially letters, are too long and cumbersome to set for publication.

We would appreciate it very much if the writers would try to be less verbose and succinct. It would be less difficult for our tiny varitype operator who has to type out each line in a column, or a double column, TWICE so the second typing of the same line can justify into a column width.

There is nothing we like better than to receive letters and articles but if they were a little shorter, Karen Garcia, our tiny varitype operator, and the editor would truly appreciate it.
