

For Efficient Oil Heating
SHOP AND COMPARE
 We think you'll choose:

Laser 56

- New models. Improved for burning #1 stove oil.
- New circuitry, burner, and blower design for greater reliability and clean burning.
- 3 burning modes: Low, Medium, High.
- 1 setback or optional programmable weekly timer.

Laser 73

- Highest Annual Fuel Utilization Efficiency for this type of heater.

Laser 56 = 84.5% (22,000 BTU/Hr.) Laser 73 = 80% (40,000 BTU/Hr.)

- U.L. approved for #1 fuel oil, not just kerosene.
- Competitive prices.
- Sales and service dealers throughout Alaska.
