# A Congresswoman to be proud of

*Please vote to send the First Alaska Native and the First  
American Native Woman in the history of the  
U.S. to Congress!*

**Education.** The future of our children must be our top priority. I will work for quality education, equal access to higher education, bicultural programs and local control.

**Subsistence.** No one will work harder to protect our subsistence rights through a constitutional amendment for rural preference.

**Jobs.** The focus must be on creating Alaskan jobs where people live. The economic base of our communities must be expanded through economic development, training, education and hiring locally.

### Resource Development.

I support RESPONSIBLE development of our resources, including ANWR. We must care for the land for future generations to enjoy and involve local people in the planning and implementation as we proceed with development.

## Respect • Responsibility • Results
