we drill in **Alaska** we sell in **Atlanta**

Atlanta. That's where we've set up our first BP gasoline station in the U.S.

And before long there'll be BP stations from Maine to Florida. Because we've just acquired the complete Sinclair distribution system in the eastern U.S.

Atlanta is where we have our operations headquarters for the "lower 48," too.

What's it to you? We thought you'd like to know where we're going. Because the very same company that's drilling on the North Slope of Alaska is now marketing in Atlanta.
