MER-CAN

THE WORLD'S MOST EFFICIENT
FIREPLACE!

distributed in Alaska by O.K. Lumber

UP TO 80%
EFFICIENCY

with
MER-CAN
PRESSURIZED
HEATING SYSTEM

Cold Fresh Air for combustion and circulation, healthy heated air for your home. Ideal for those with asthma or allergy problems.

Keeps the cold air out and wraps your home in a warm air cushion while equalizing the inside and outside air pressures, reducing loss of that valuable heat.
USES ONLY OUTSIDE AIR FOR COMBUSTION & HEATING!

DURABILITY: Our fireplace features the finest materials available. A stainless steel firebox and heat chamber. Space-age insulation covered externally with two layers of rust resistant, galvanized steel.

FUEL ECONOMY: Mer-Can produces heat efficiency never before possible from wood or coal. Glass fire screen doors are used to control fuel.

UTMOST SAFETY: Approved test standard UL 127 by Warnock-Hersey International I.C.B.O. No. 3307 completely enclosed in Fibre Fax space-age insulation that withstands temperatures up to 3,200 degrees.

HEAT CONTROLLER: Heat chamber register output 180 cubic feet per minute. Up to 400 degrees temperature output controller.

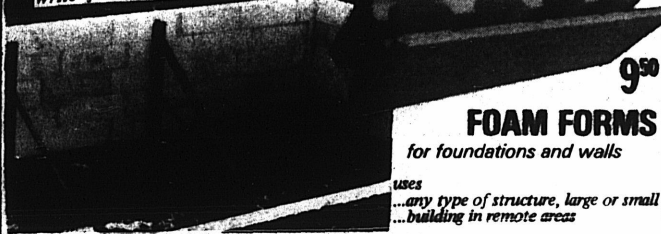

25 YEAR WARRANTY! MOBILE HOME APPROVED!
