Dear Editor:

Just got home from fire down Chicken area and we were sixteen men from Anaktuvuk Pass that went to fire. And we had a quite time with fire. That was biggest fire we ever being since we join to BLM EFF and that was good enough on fire for some of the men that went to fire

And I guess men from here now know what to do when they go back to fire and they really enjoy the work they done on fire.

Sorry for delaying for sending my payment to you on my subscription of Tundra Times.

Thank you,

Raymond Paneak
