

CENTER POTLATCH

By ROBERT GREGORY

There is a great need for the Native community to recognize the conditions of the old people at Careage North. They do not get many visitors and most of their relatives are back in the villages.

There are not many activities of interest to Natives there. They are in a strange environment and have little with which to occupy their time. They sit around and hope for something to happen. Let's make something happen.

A potlatch is being planned and will take place Sunday, December 9, from 1:00 p.m. to 5:00 p.m.
