A Message From Eben Hopson About the Capital Improvements Program of the North Slope Borough Wainwright

Located in the harsh environment of America's Arctic coast, the people of Wainwright pride themselves on being a warm and friendly community with strong Inupiat cultural traditions. Their lives are tied to the migratory subsistence resources which have sustained them for centuries.

I feel the people of Wainwright have two main community objectives: first, to improve their standard of living and second, to preserve their historic traditions as a real Inupiat village.

Helping the people achieve these goals has been a major concern of our Capital Improvements Program. Nearly \$5.5 million has already been spent in constructing roads, electrical utilities, and the new elementary school. Projects scheduled for the future include completion of the educational facilities, a new water and sewer system, and a health center.

The North Slope Borough, with the assistance of Wainwright residents has conducted an extensive inventory of land use patterns and subsistence resources. Since the area lies within the National Petroleum Reserve, we are committed to carefully protecting patterns of aboriginal use from damage.

I believe that close cooperation between the people of the community and the Borough will go a long way in achieving their objectives.

Re-elect Eben Hopson Mayor North Slope Borough

Paid for by the Hopson for Mayor Committee; Oliver Leavitt, Treasurer; Box 175, Barrow, Ak. 99723.
