

# ***On St. Lawrence Island: More modern things***

**by Grace Slwooko**  
**for the Tundra Times**

**GAMBELL** — Here at Gambell on St. Lawrence Island, more modern things are coming on — like housing, airplanes coming every day.

One thing that is so new is Hondas. People sure use those vehicles to go about, as Gambell is getting bigger and modern things coming on.

Another thing different this year is that we didn't get a whale. Our men used to bring home a whale in spring time, but not this year.

Although I hate to kill those sea animals, I like to eat the meats and oil of this great animal, a whale. We didn't have one this year.
