

Senator Gruening Takes Interest In Noorvik Mill

The story that appeared in the August 26 issue of Tundra Times about the Noorvik sawmill aroused quite a number of people throughout the country including Senator Ernest Gruening of Alaska.

"As you will note," Gruening wrote, "my concern about the sawmill was aroused after reading the article appearing in your August 26th issue. I hope something constructive can be worked out."

The Senator enclosed a copy of a telegram he had sent to Isaac Smith, president of Noorvik city council, which read as follows:

"Noted article in Tundra Times concerning unworkability of sawmill and am taking matter up with Commissioner of Indian Affairs Robert Bennett. Will be in touch with you further as soon as I hear from him."
