

# *U of A Obtains General's Papers For Archives*

A collection of photographs and papers about early United States Army activities in Alaska has been added to the University of Alaska Library Archives.

The papers of Maj. Gen. C.S. Farnsworth were donated by his son, Robert J. Farnsworth of Alhambra, California.

The collection contains material principally concerning the period from 1899 to 1911 when Gen. Farnsworth was in command of Fort Gibbon (near Tanana) and Fort Egbert (near Eagle).

Farnsworth was assigned to Alaska to locate and construct the two forts and to build the northern section of the Alaska Telegraph System.
