

M.S. of Ottawa-

Canada's Nursing Advisor to Visit Here

Catherine Keith, M.S. of Ottawa, Ontario, will be visiting Fairbanks on Friday, to meet with individuals and groups on Canada's Northern Health Service.

Miss Keith is Nursing Advisor, Medical Services Branch, National Health and Welfare.

Canada is encountering many of the same problems as Alaska in delivering health care to approximately 50,000 people scattered in relatively small groups over a vast area.

The health delivery system of the Yukon and Northwest

Territories has some similarities to that of "bush" Alaska, but there are differences worth consideration.
