

# To Convene Hearings at Selawik: APUC

The Alaska Public Utilities Commission will convene two public hearings in Selawik on Wednesday, June 4, 1975, concerning the tariff revision filed by Alaska Village Electric Cooperative, Inc. (AVEC), and the city's complaint regarding the utility's services.

The public hearing to consider the reasonableness and propriety of AVEC's proposed tariff revision will be convened at 1:30 P.M., in the National Guard Armory at Selawik. AVEC is seeking authority to adopt a comprehensive codified tariff.

The Commission previously suspended the filing in order to provide adequate time to analyze what effect the utility's proposed rules and the changes in some of its fees and charges will have upon the public.

Immediately following the hearing in the tariff revision matter, the Commission will convene a public hearing to consider the complaint of the City of Selawik regarding the services which AVEC is providing to its customers in that community.

At these hearings the public will be afforded the opportunity to offer testimony and present evidence for the record in each of these proceedings.
