

Alaska Line has a better way to get your car to Seattle!

Of course if you think half the fun is getting there, you *might* prefer braving the elements to a warm dry boat ride. Chances are, though, that if your car had a vote, she'd just as soon make the trip via Alaska Line. Since transporting automobiles is

one of Alaska Line's specialties (along with containerized cargo, LTL, and just about every other kind of cargo you can think of), they've made shipping your car as convenient as it could be.

For more information about the

effortless way to transport your car . . . call or write your nearby Alaska Line office. Say that you read somewhere that The Man From Alaska Line has a better way to transport almost everything . . . and you'd like him to prove it!

Alaska Steamship Company / Traffic and Sales Representative: Alaska Trainship Corporation
