Like we say in health circles, "Let me bend your ear" Lynn Smith, our "retired" public health nurse and Lonn Robertson, our "retired" dentist, have worked together in the same building for over two years and never even given it a second thought. But on their joined trip east — cross country — the lightning struck, and now they are engaged to be married. Congratulations — may happiness, good health, and zero cavities be yours forever

And belated, but not forgotten, are our wishes for Carol

— the dentist, and Les — the veterinarian, on their wedding.

We all here at the department followed the various stages of their affair and we were very happy when they finally set the date, but it left us with one less thing to gossip about. Well, may you have lots of well-groomed puppydogs and bright smiles in your life together.

The Barrow Beauties (softball and volleyball teams) are again this year looking to sponsor Eric Buetow, former Barrow dentist, for the Iditarod race. Please call us, 852-3999, if you want to contribute. Thank you.
