**THE
NATIONAL
PARK
SERVICE**

Alaska
**WILDERNESS
REVIEW**

The National Park Service is beginning to prepare a report to the President and Congress about whether additional areas in the National Park System, Alaska, should be designated wilderness. An Environmental Impact Statement will be prepared for each area. Draft EISs will be available for review in late 1987.

The public is invited to meet with the National Park Service:

- To identify issues and concerns, and
- To discuss alternative recommendations.
