

HERE'S THE LOW DOWN ON HOMES IN ALASKA

When people first hear that they can buy a HUD Home, often for only \$100 down, they ask what the catch is. Quite simply, there isn't one. In communities throughout Alaska, there's a wide selection of properties to choose from; and prices haven't been this low in years. You will have to fill out a one-page form to make your bid, but that plus \$100 down may be all that's standing between you and your dream home.

Contact any Alaska-licensed real estate agent for more information.
