

Ruby John

RESPONSIBLE LEADERSHIP

"Ruby is active and has a strong voice in the Ahtna Native Corporation, which has turned a profit every year since its inception. I've seen her do her homework about the issues and make tough decisions. She'll get my vote for State House."

Nick Jackson, Copper Center

Ahtna Board member and former candidate for State House

"What struck me about Ruby John was her degree in math; with that I'm sure she can balance a budget. She's bright. She's mature. And she's run a successful family business. But most importantly, Ruby cares about this entire district and she knows it well."

Mellie Terwilliger, Tok

former Democratic Party Chairman

"Over the past 18 months I've worked with Ruby on a committee for borough formation. She's been instrumental in voicing both Native and non-Native concerns, and has been a real asset to the committee. To me, that shows the kind of leadership you'd want in Juneau."

Steve Jones, McKinley Park
