4 AAC 06 is proposed to be amended by adding a new section to require that each school district report to the Department of Education by November 15 of each year those students who leave school before graduation. Any student with more than 10 consecutive days of unexcused absence who is not enrolled on October 15 in an approved public or private education program must be included in the report.

The reporting period is defined in the proposed regulation as the school calendar year running from October 16 of the previous year to October 15 of the year the report is due. The proposed regulation also requires the district to report specified information about early leavers, such as their demographics, academic progress and participation in special programs.

Notice is also given that persons interested may present written statements or arguments relevant to the proposed action by writing to Commissioner's Office, Attn: Regulations Review, 801 West 10th Street, P.O.
