

Barrow Water Access Road to Immiksaun Lake Nears Completion

By GUY OKAKOK
Barrow Correspondent

BARROW, (Special)—Road to the water lake is almost done. Heard today another weeks the road will be completed and be used to haul drinking water from that lake which is around three miles off town.

Chamber President

Last Thursday, Chambers of Commerce elected a new president. Mr. Alfred Hopson was elected for president.

Alfred wasn't in the meeting but the member vote for him though.

Next meeting we members will have to discuss over on this Olympic Program whether we will send people down or not.

For further plans will be from our president.

What a Race

This afternoon, natives and whites took a seven-mile heat race. Starting from bank way up to Vinnell bridge.

For over two miles one of the white in this race was leading. But coming back from the bridge, Eskimos catch up the leader and a young man by the name of Michael Leavitt took lead and won the race.

Michael made it good time,

39 minutes through sand too.

Michael Leavitt went down to Fairbanks to take part of the long range race, footed, 1966 in Eskimo Olympic Program but somehow, they never told him or notify him when the time come.

Michael never complain any on this being left out in this big race in Olympic. This time, Michael will have his ears open.

Michael don't argue, but quiet young man and honest.

Sorry Folks

I'm sorry to say that you readers of Tundra Times papers kind a disappointed not finding my columns. This time it won't wait that long. Again I say I'm sorry.
