

Sen. E. L. Bartlett

Back In Hospital

Sen. E. L. (Bob) Bartlett is back in the Bethesda Naval Hospital under intensive care after he was stricken in his office last Saturday.

He was reported to be resting comfortably but he was expected to be in the hospital for several weeks. His latest illness occurred after his release from the hospital not long ago.

Although Bartlett was reported to have suffered a lung congestion, the illness was diagnosed as a heart seizure.

The senator's condition is said to have improved since last Tuesday.
