

# **Bridge replacements for Nome**

The Department of Highways announced recently that it will begin advertising for bids to construct Project R S - B R S - 0 1 3 0 ( 1 8 ), B R S - 1 0 3 0 ( 2 0 ), and RS-0130(21), Bonanza Channel and Solomon River Bridges and the Jerusalem Creek structural plate pipe.

The work will consist of removal of three existing bridges and constructing a 210-foot truss bridge over Bonanza Channel, a 180-foot 8-inch Glu-Lan girder bridge over Solomon River, and a 132-inch-diameter structural plate pipe at Jerusalem Creek. The bridges will provide a 24-foot clear roadway width.

All work is scheduled for completion in 200 Calendar days. Bids will be opened in the Commissioner's Office in Douglas on June 17, 1976.
