

**MERRY CHRISTMAS and
HAPPY NEW YEAR TO ALL!**

We hope everyone enjoys the holidays
that are coming ahead.

**Enjoy Christmas safely this year. Here
are some reminders about things to watch
with your children.**

1. Did you know that **poisoned** can
be toxic for you and your children
if you eat them?

2. Also, on real Christmas Trees
pine needles can get stuck in chil-
dren's hair. If you have small children don't put them in
their mouths that don't belong.

3. The smaller children don't realize
that **Christmas Lights** are breakable,
and that electricity can hurt. All they
know is that they want to play with
those pretty lights. Children are cur-
ious by nature.

It's no fun spending Christmas in the hos-
pital with strangers

**A HAPPY AND SAFE CHRISTMAS TO
ALL**
