Request for Proposals Division of Vocational Rehabilitation and Division of Mental Health and Developmental Disabilities Department of Education and Department of Health and Social Services Supported Employment Project

The Division of Vocational Rehabilitation and the Division of Mental Health and Developmental Disabilities are seeking written proposals to provide supported employment services to severely disabled individuals. The purpose of this proposal is to develop community based vocational alternatives for severely disabled persons by developing local alternatives to sheltered work. Accepted models for supported employment are the job coach model, enclave mobile work crews, and entrepreneurship. It is expected that applicants for these grants will use funds currently provided by the Division of Mental Health and Developmental Disabilities for vocational programs as a fiscal match.

To be eligible for supported employment consumers must need ongoing support and follow-up to succeed in integrated employment settings. \$214,400 is currently available for grants statewide. Interested applicants may obtain a Request for Proposals (RFP) by writing:

Division of Vocational Rehabilitation
P.O. Box F, M.S. 0581
Juneau, AK 99811-0500

Requests for the RFP must be made by April 24, 1987. RFP applications must be submitted to the above address no later than May 20, 1987 at 4:30 pm Alaska Day Light Time.

REQUEST FOR PROPOSALS

The Yukon-Kuskokwim Health Corporation (YKHC—a Native Health Corporation head-quartered at Bethel, AK.) is seeking proposals to conduct an analysis of the field budget of the Yukon-Kuskokwim Delta Regional Service Unit (YKDRSU). YKHC is planning the assumption of the operation of the UKDRSU during FY88. The final report will be used to (1) determine YKHC's decision to proceed with the assumption on October 1, 1988; and (2) assist in determining a dollar amount to be used in our contract negotiations with the Alaska Area Native Health Service, should we decide to proceed at this time.

The successful applicant will generate a final report that will identify:

- The elements of the present field budget that will be available to YKHC should we assume service unit operation and the amount of the field budget;
- Transitional costs that will be associated with the assumption;
- Operating costs that YKHC will incur that will not be funded by the field budget, as well as anticipated revenues from third-party recovery, Medicaid, and Medicare;
- A three-year operating budget based upon explicitly stated assumptions (best-case scenario, most-likely-case, and worst-case scenario);
- Other critical issues to be considered in the contract proposal, to include a statement of the

perceived potential impact on present YKHC deliver of services. (For example, mal-practice insurance, supply acquisition, recruitment costs, IPA vs. direct-hire.)

Applicants will be evaluated on:

- The Problem/Task Statement (to include a detailed statement of the actual issues/topics that will be investigated by the proposal);
- Analysis plan (which will include the applicant's intended approach to the collection, analysis, and presentation of data that is indicated by #1, above);
- Adequacy of the Final Report (the extent to which the final report meets YKHC's decision-making needs);
- Demonstration of past experience in conducting such studies, (including the qualifications of key personnel who will be conducting this project);
- Native Preference

To Respond to this RFP, applicants must submit a letter of intent by May 1, 1987 (Post Office receipt or cancellation), to:

Walton Smith
