THE FUTURE BELONGS TO PEOPLE WITH TECHNICAL SKILLS.

You hear it everywhere. The Electronic Age. The Age of the Computer. The Era of High Tech. And that the future belongs to the people with the technical skills.

But where do you go to learn technical skills?

Consider the Army.

We have over 300 skills to offer, many of them technical, and most of them have their civilian counterparts.

You could learn a skill in the Army that you could carry right into the future. It's a good chance for you to be what you want to be. So see your Army Recruiter.
