LET'S NOT TURN OUR BACKS...IT'S TIME TO FACE THE FUTURE.

"The oil industry in Alaska has helped to provide many of the essential services that this state requires. They have also allowed and provided for the development and growth of non-essential, but highly desirable services relative to the arts."

—Peggy Freeman Purdy, Teacher, Galena, AK

Four out of every five Alaskans feel that oil and gas development is good for Alaska.... You may not know that... because it doesn't make headlines. And when a quiet majority lets a vocal minority dominate public debate, fairness is the first casualty.

It's time for the majority to be heard.
