

Klukwan Grant

JUNEAU — Gov. Walter J. Hickel's office reports that the community of Klukwan, between Haines and Skagway, has received a state Rural Development Agency grant for \$1,250.

The funds will be used to pay wages of village residents working on the installation and repair of 35 power transmission line utility poles.

The project is part of a program to install a new power generator in Klukwan.

Supervising the project for the community will be John Willard, Dick Hotch and Johanna Hotch. The grant is the ninth made to the village by RDA since 1959.
