

The story this year is snow

by Grace Slwooko
for the Tundra Times

This year, snow is something to talk about. Boy, lots of snow at Gambell! Beautiful pure white mounds of snow here and there — all over.

People use snow machines to go about nowadays. Also, Hondas are in use, too, even in winter. We don't use dog teams any more.

I used to travel with dog teams as a girl in my youth. My father used to take me along a lot, even to the other end of the island.

Airplanes are wonderful, they come every day. I like that.

Snow is just beautiful and white all over our area.
