TORQMATIC CONVERTERS & TRANSMISSIONS

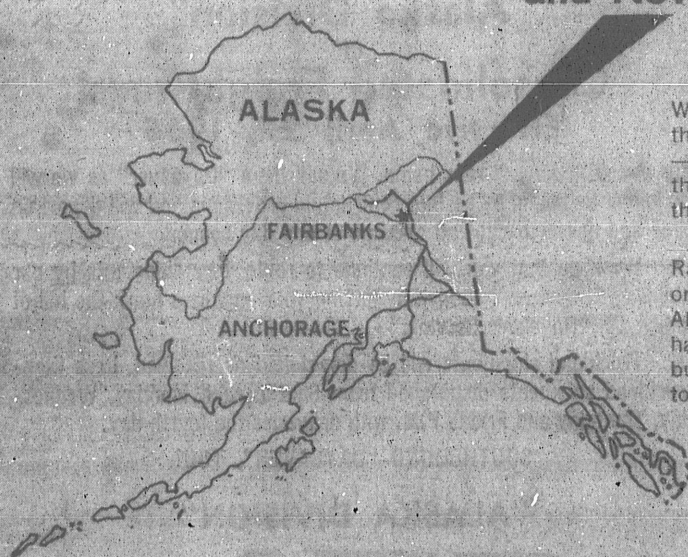

and Now... Euclid Service

out of Fairbanks

While the snow has been deep—so much so that in the bush areas the moose stand in the clearings and roads and make driving difficult—we have been busy establishing a branch here in Fairbanks. It's the farthest north Euclid dealership branch; only 120 miles south of the Arctic Circle.

We are now ready to serve Fairbanks, and the north of the Alaska Range area with an excellent and complete parts, service and sales organization operating under the supervision of Jack Pritchard, Alaska Manager, who succeeded the late Clark Collier. In fact, we have airplane landing rights, on wheels or water, right next to our building. Contractors can fly in for parts and service and, perhaps, a touch of Fairbanks boom-town excitement.

Come in soon and see Store Manager, Lloyd Wilson and Shop Foreman, Ray Reed. Both are ready, able and willing to help you with your needs.
