

Environmental Check on Cove Harbor

The Alaska District, U.S. Army Corps of Engineers, recently announced that the final Environmental Statement on King Cove Small Boat Harbor Project was forwarded to the Council on Environmental Quality on October 18, 1972.

The recommended harbor project is designed to provide a protected anchorage basin for resident and transient fishing vessels during periods of storms and off-season storage.

The final Environmental Statement was prepared after various Federal, State, and local agencies as required by Section 102 of the National Environmental Policy Act of 1969 and as prescribed by the Council on Environmental Quality.

Copies of the final Environmental Statement may be obtained from the District Engineer, U.S. Army Corps of Engineers, P.O. Box 7002, Anchorage, Alaska 99510.
