#### NOTICE OF PROPOSED CHANGES IN THE REGULATIONS OF THE ALASKA DEPARTMENT OF FISH AND GAME

Notice is hereby given that the Alaska Department of Fish and Game, under authority vested by AS 16.05.020 and AS 16.05.870, proposes to adopt, amend or repeal regulation in Title 5 of the Alaska Administrative Code, dealing with waters important for the spawning, rearing or migration of anadromous fish, which implement, interpret or make specific the provisions of AS 16.05.870.

The Department may adopt, amend, repeal or take no action on the subject matter of the proposed regulatory changes listed in the following informative summary.

The Department proposes to adopt, amend, repeal or take no action on the *Catalog of Waters Important for the Spawning, Rearing or Migration of Anadromous Fishes*, and the *Atlas to the Catalog of Waters Important for the Spawning, Rearing or Migration of Anadromous Fishes*. The six volume atlas is a compilation of topographic maps, scale 1:63,360 or 1:250,000, upon which are designated in accordance with AS 16.05.870(a), the various rivers, lakes or streams, or parts of them, that are important for the spawning, rearing or migration of anadromous fish. The catalog sets forth legal descriptions for the mouth of each stream, river or lake designated on the maps in the atlas, as well as assigns to each stream, river or lake a unique identification number. The atlas and the catalog have the effect of identifying the waters for which a person or agency must first notify the Commissioner of Fish and Game, in accordance with AS 16.05.870(b), before undertaking to construct a hydraulic project or use, divert, obstruct, pollute or change the natural flow or bed of a specified river, lake or stream, or use wheeled, tracked, or excavating equipment or log dragging equipment in the bed of a river, lake or stream set forth in the atlas or the catalog.

The atlas and the catalog also set forth information regarding permit application requirements, a user's guide to the atlas and catalog, an explanation of the unique stream, river and lake numbering system, sources of information contained in the atlas or the catalog, limitations of the information in the atlas or the catalog, updating procedures, definitions of terms, and other information or requirements to implement, interpret or make specific the provisions of AS 16.05.870.

## NOTICE OF SALE STATE OF ALASKA COMPETITIVE OIL AND GAS LEASE 48 (Kuparuk Uplands) AND 48A (Mikkelsen)

The Department of Natural Resources, Division of Oil and Gas (DO&G), gives formal notice under AS 38.05.945(a) (4) of its intention to offer lands for competitive oil and gas lease. Proposed Sale 48 includes 104 tracts with an area of approximately 526,101 acres. The proposed sale area consists of onshore acreage near the Kuparuk River south of the Kuparuk oil field, on Alaska's North Slope. The entire sale area is within the North Slope Borough. Nuiqsut is the only community in the vicinity of the sale area.

Proposed Sale 48A includes 11 tracts with an area of approximately 42,053 acres. The proposed sale area consists of onshore and offshore acreage near Nikkelsen Bay and Foggy Island Bay on Alaska's North Slope and in the Beaufort Sea. This acreage was previously leased in state oil and gas lease sales 14 and 23 and was formerly included in the West Mikkelsen Unit. These leases expired on December 31, 1985. The entire sale area is within the North Slope Borough.

#### Bidding Method

The bidding method for all tracts will be cash bonus bidding with a minimum bid of \$5.00 per acre. All tracts will have a fixed royalty of 12-1/2%.

#### Length of Lease

All leases will have an initial primary term of 10 years.

#### Rental

Annual rental will be \$1.00 per acre for the first year, \$1.50 per acre for the second year, \$2.00 per acre for the third year, \$2.50 per acre for the fourth year, and \$3.00 per acre for the fifth and following years.

#### Lease Form

Any lease issued as a result of Sale 48 or 48A will be executed on Form DO&G-01-86 (COMPETITIVE OIL AND GAS LEASE) which was revised in January 1986. This form is available at DO&G.

#### Other Terms of Sale

Any bidder who obtains a lease from the State of Alaska as a result of this sale will be responsible for the construction of access roads and capital improvements as may be required by the appropriate platting authority. All operations on leased lands will be subject to prior approval by the state as required by the lease and leasing regulations. Surface interests as shown on the departmental status plats or as necessary to protect identified surface resource values.

#### Bidding Procedures

Sale 48 is scheduled for February 25, 1986 at the Anchorage Hilton Hotel, 3rd & E Streets, in Anchorage, and will be held in conjunction with Sale 48A (Mikkelsen). Bids will be received and processed on February 25, in the following manner:

1. 8 a.m.- 9 a.m.- bids will be received in the "Aleutian Room."
2. 9 a.m.- closing of bid submission.
3. 9 a.m.- 10:00 a.m.- bids will be opened.
4. 10:30 a.m.- a public reading of the bids will be in the "Alaska Room."

Bids also will be accepted from 9 a.m. to 4 p.m. on February 24, 1986 in Room 1380 (13th floor) of the Frontier Building, 3601 "C" Street, Anchorage, Alaska. Bids that are sent by mail must be sent to: Director, DO&G, P.O. Box 7034, Anchorage, Alaska 99510-7034, and must be received by February 24, 1986. Bids that are sent by Federal Express, DHL, or any other delivery service must be received by February 24, 1986 and should be addressed to: Director, DO&G, Room 1380, Frontier Building, 3601 "C" Street, Anchorage, Alaska. The envelope should be marked "State of Alaska Competitive Oil and Gas Lease Sale 48 or 48A; not to be opened until 9:00 a.m., February 25, 1986; Tract # \_\_\_\_\_"

In order to bid at the sale, bidders must prequalify prior to the sale date. However, bidders who have qualified for a State of Alaska Competitive Oil and Gas Lease Sale in 1985 do not have to prequalify prior to Sales 48 and 48A. Potential bidders should consult DO&G for prequalification procedures.

Under 11 AAC 82.445, a bid will not be considered unless supported by the bid deposit and the information required, unless any omission is determined by the Commissioner or her designee to be immaterial or due to excusable inadvertence and the omission is corrected within one week after receipt of a notice of deficiency.

#### Stipulations and Mitigating Measures

AS 38.05.035(e) and the departmental delegation of authority give the Director, Division of Oil and Gas, the authority to impose conditions or limitations, in addition to those imposed by law, to ensure that a disposal best serves the interests of the state. To meet this requirement, the Director has developed environmental and social terms and conditions for tracts leased in Sales 48 and 48A. Lease stipulations will be enforced throughout the term of the lease. Measures will also be imposed through approval of plans of operations and other permits as needed to mitigate undesirable social and environmental effects of lease-related activities.

The stipulations and terms describe standards that must be met by the operators with regard to water quality and appropriation, gravel extraction, oil spill prevention and cleanup, construction of roads, pipelines and other lease-related structures and facilities, public access, disposal of waste, drilling muds and cuttings and produced waters, timing and routing of exploration and development activities, rehabilitation of abandoned sites, and additional permits and approvals.

These stipulations and terms are necessary to protect biological and archaeological resources and to mitigate social impacts in the sale areas.

#### Additional Information

In support of these sales, the Director of the Division of Oil and Gas has prepared final written findings under AS 38.05.035(e) which sets forth the facts and applicable law upon which she has determined that the proposed actions will best serve the interests of the state. The Director's written findings and decisions are available at the Division of Oil and Gas, Frontier Building, 3601 "C" Street, Room 1386, in Anchorage or by writing DO&G at P.O. Box 7034, Anchorage, Alaska 99510-7034. Tract maps and additional information on the proposed sales are available to bidders and the public at DO&G. Effective January 1, 1986, the cost for each set of tract maps is \$50.00.
